## DEEP TISSUE MASSAGE \*

60 minutes - USD\$30 90 minutes - USD\$45

Deep tissue massage is a therapy that focuses on realigning deeper layers of muscles and connective tissue. It is helpful for chronically tense and contracted areas such as stiff necks, lower back tightness, and sore shoulders. When there is chronic muscle tension or injury, there are usually adhesions (bands of painful, rigid tissue) in muscles, tendons, and ligaments. Adhesions block circulation and cause pain, limited movement, and inflammation. Deep tissue massage works by physically breaking down these adhesions to relieve pain and restore normal movement.

Hot stone therapy melts away tension, calms the psyche, and releases toxins from the body and increases circulation and metabolism. Our professional massage therapist also incorporates a customized massage with the use of hot stones. The direct heat of stone relaxes muscles, allowing the therapist access to the deeper muscle layers. The hot stones also expand blood vessels, which encourages blood flow throughout the body.
